What have I been doing since high school?

After graduating from CHS, I went to San Jacinto College majoring in biology. While attending college, I got a job at North Shore Hospital in the Laboratory Department.

On New Year's Eve, 1971-1972, my cousin Kathy Smith Silva introduced me to a co-worker of hers. She knew I dated a Lebanese while at San Jacinto and thought he and I would hit it off. Boy did we! We got married five months later and by the time 1973 rolled around, we were living in Dubai. Two years later we had our daughter, Shetha. When she was seven months old, we moved back to Louisiana where we had our son, Majeed.

A couple of years later, Hameed got transferred to Greece. We lived there three years and then came home to Texas. Since the kids were in school I persuaded Hameed to settle here. We built a house in Decker Prairie and the kids attending Tomball until graduating. When they graduated, we decided to build on Lake Conroe. During that time, I was working as an accounts receivable clerk at an insurance brokerage firm in Spring. In 2007, my job went to India and I retired.

We now have three grandchildren in Portland, Oregon where our daughter lives with her husband. Our son is in Redmond, Washington and has a girlfriend in Turkey. Hameed is back and forth in the Middle East and sometimes I get to go with him, that is if I'm not on the west coast getting my Grandkid Fix!

We have traveled to Italy, Spain, Jordan, Kuwait and Dubai on numerous occasions. I've even gotten to go back to Lebanon, which is a country I love. So beautiful and great food! "Who am I" . . . I am Donna Ogle Salman.
