What have I been doing since high school?

Terri and I have a daughter thirty-three and twins (boy and girl) thirty one years old. They are all great kids. All attended four year colleges and one has her masters' degree. All are self sufficient (yea). We have eight grandchildren. What a joy they all are.

I have worked in the steel business for thirty five years. It has taken me from Texas, to California, to Illinois, and finally to Arkansas. We have lived here for eighteen years. This will probably be our retiring place (hopefully that will be in 2008).

Our parents still live in Channelview, although, Terri's mom passed away in 2004. I am still into fishing and try to do that as much as possible. My newest recreation is scuba diving. We enjoy keeping up with old classmates through the website.
Who am I? I am Glen Brown
