## What have I been doing since high school?

After two years at Lee College I married my high school sweetheart Robin Walker on July 2, 1971. I worked in the oil and petro-chemical industry until the construction industry came calling. The construction industry paid the bills until 1992 but there was no retirement check or health insurance in sight.

One day while I was constructing a roadway bridge in the Woodlands, I had this bright idea to work for the Texas Dept. of Criminal Justice in the Palestine, Texas area so we could move to our weekend home in Buffalo, Texas. I retired from the Prison System, where I worked as the Maintenance Supervisor, on October 31, 2005. (I ran into a few people from Channelview in the prison system, and they were not there to get a paycheck). At last, a retirement check and health insurance all paid for by the State of Texas. The reason I had to have the insurance was due to a heart attack and by-pass surgery in November, 1993. I have had two stints since that time.

Robin and I have one daughter, her name is Randi, and she has given us two grandsons. They live around the corner from our house in Tarkington. We still have the place in Buffalo so the kids can deer hunt and enjoy the outdoors. Robin and I travel to Buffalo on weekends for a getaway and attend church there. We both would love to hear from our classmates and friends. Who am I, well I am Glen Owens.
