What have I been doing since high school?

I only went to CHS my senior year so I didn't really know many people and I didn't have time to get involved in any organizations. Joe Stepp was my best friend during high school. I got to know Joe toward the end of the year and we worked together for about a week after graduation. I also got to know Kris Campbell after graduation and I went to the same church as Arlene Fontenot who was a sophomore at the time.

I attended a few institutions of higher learning. Was drafted and went into the USAF and I was stationed in Arkansas. I have worked at four different engineering and construction firms. I am presently employed by S&B Engineers. I am a control systems specialist, which means I write specifications and programs for industrial computers that controls refineries and chemical plants. Who am I? I am Renwick Preston.
